✓ Minimal Workflow Disruption

- I integrate into your schedule and surgical flow with efficiency and flexibility.

✓ Clear Roles & Communication

- Expectations are outlined ahead of time for smooth collaboration.

✓ Surgical Equipment-Ready

- I bring surgical instruments and implants. We can work together on any additional equipment needs.

✓ Professional, Respectful Partnership

- My role is to complement your team and reinforce your standard of care.

Together, we deliver advanced care while **strengthening** your client relationships.
